DETAILED ACTION

1. This is responsive to the amendment filed 10/28/09. Claims 17-24 are currently pending.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 22 stands rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A. As per claim 22, applicant has amended the claim to read "transporting means" with the intention of invoking 112/6th paragraph. However, the claim still does not positively recite a function associated with the "transporting means". The examiner suggests rewriting the claim as "transporting means for transporting". This "means" appears to correspond to aircraft, ships and automobiles and their equivalents (spec. pg. 8). If this is incorrect, applicant is requested to state on the record what structure(s) correspond to the claimed means.
 - B. Furthermore, the claimed "transporting means" is modified by some structure, material, or acts recited in the claim ("means including a component ..."). It is unclear whether the recited structure, material, or acts are sufficient for performing the claimed function which would preclude application of 35 U.S.C. 112, sixth paragraph.

If applicant wishes to have the claim limitation treated under 35 U.S.C. 112, sixth paragraph, applicant is required to amend the claim so that the phrase "means for" or "step for" is clearly **not** modified by sufficient structure, material, or acts for performing the claimed function.

If applicant does **not** wish to have the claim limitation treated under 35 U.S.C. 112, sixth paragraph, applicant is required to amend the claim so that it will clearly not be a means (or step) plus function limitation (e.g., deleting the phrase "means for" or "step for").

C. It appears from the description on page 8 of the specification that the claim would be more accurate if it read: "transporting means for transporting a component to be a measurement object" (i.e., engine of an aircraft).

4. Claims 17-21, 23 and 24 are allowed.
5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
